## SITUATION SUMMARY

### Cal OES Activation Status

| State Operations Center | Inland Region EOC | Coastal Region EOC | Southern Region EOC |
|-------------------------|-------------------|--------------------|---------------------|
| Level 1                 | Normal Operations | Normal Operations  | Normal Operations   |

#### Cal OES INLAND REGION

- Nothing significant to report.

#### Cal OES COASTAL REGION

- Nothing significant to report.

#### Cal OES SOUTHERN REGION

- Nothing significant to report.

# COVID-19 SUMMARY

## **Coronavirus Disease 2019 (COVID-19)**

On 03/02/20 at 0700 hours, the Cal OES State Operations Center (SOC) activated in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

## **SMARTER Plan**

On 02/17/22, Governor Newsom unveiled the "[California SMARTER Plan: The Next Phase of California's COVID-19 Response](#)". The plan emphasizes continued readiness, awareness and flexibility and helps ensure California can maintain its focus on communities that continue to be disproportionately impacted and stay prepared to swiftly and effectively respond to emerging COVID-19 variants and changing conditions.

## **CDPH Statewide Travel Advisory**

- For more information: [CDC Travel Guidelines](#)

## **Confirmed California COVID-19 Cases - Per California Department of Public Health Tracking COVID-19 as of 05/18/22 at 1630 hours:**

- 8,757,871 total confirmed cases.
  - 70,245 Delta
- 90,219 total deaths.
  - 262 Delta
- Please see the most recent "Situation Report - COVID-19" attachment for additional details.

# **FIRE ACTIVITY**

## **EMAC**

### **CA-OESH-000001-2022 New Mexico EMAC:**

- 9 OES Type 3 Engines
- 1 Local Government Type 3 Engine
- 10 OES Type 6 Engines
- 1 Type 1 Hand Crew
- 1 CalOES Fire and Rescue Assistant Chief Assigned

## **Mission Tasking**

**2020-FIRE-20323:** Joint Task Force Rattlesnake consisting of 330 CNG service members to backfill federal, state, and local first responders committed to COVID-19 emergency response operations.

## **Cal OES INLAND REGION**

### **Edmonston, Vegetation Fire, Kern County (Final)**

Location: Edmonston Pumping Plant Rd x Cattle Creek, 6 miles NE of Lebec

Jurisdiction: Local DPA, SRA, Contract County

- 682 acres grass, brush and oak woodland, 90% contained
- Continued construction and improving control lines
- CAL FIRE ground resources assigned
- CAL FIRE agency representative assigned

## **Cal OES COASTAL REGION**

### **Quail, Vegetation Fire, Solano County (Final)**

Location: Quail Canyon Rd. x Pleasants Valley Rd., 5 miles southwest of Winters

Jurisdiction: State DPA, SRA, Sonoma-Lake-Napa Unit

- 135 acres grass, 90% contained
- Limited access and steep terrain
- Continued patrol and mop-up

## **Deployments**

- 1 CalOES Fire and Rescue Assistant Chief deployed to Incident Command Post (ICP) ([Demobilized](#))

## **Shelters**

- Per County OES the American Red Cross is standing by to open a shelter in Vacaville with assistance from Solano H&SS. No requests for shelter support have been received.

## **Cal OES SOUTHERN REGION**

- Nothing significant to report.

**Cal OES**  
GOVERNOR'S OFFICE  
OF EMERGENCY SERVICES

# WEATHER OF CONCERN

## NORTHERN CALIFORNIA

- Red Flag Warning in effect starting Monday (05/23) due to breezy northerly winds [lasting to Wednesday \(05/25\)](#). Gusts up to 35 mph; with the greatest threat on the West side of the Sacramento Valley along interstate and west of Interstate 5 and into the Coastal Range foothills. Additional impacts for the rest of the Sacramento Valley, the Delta, and surrounding foothills.
  - The combination of breezy northerly winds and very low humidity will likely lead to elevated fire weather conditions.

## SOUTHERN CALIFORNIA

- No significant weather of concern.

# Weather Key Points

Regional Operations Center

Western Region

Tuesday, May 24

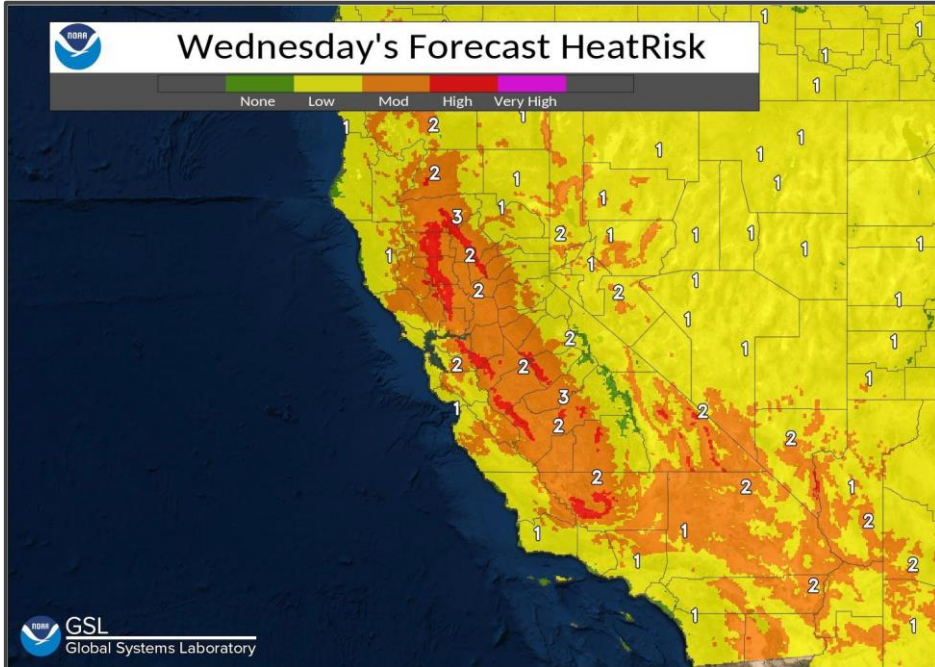

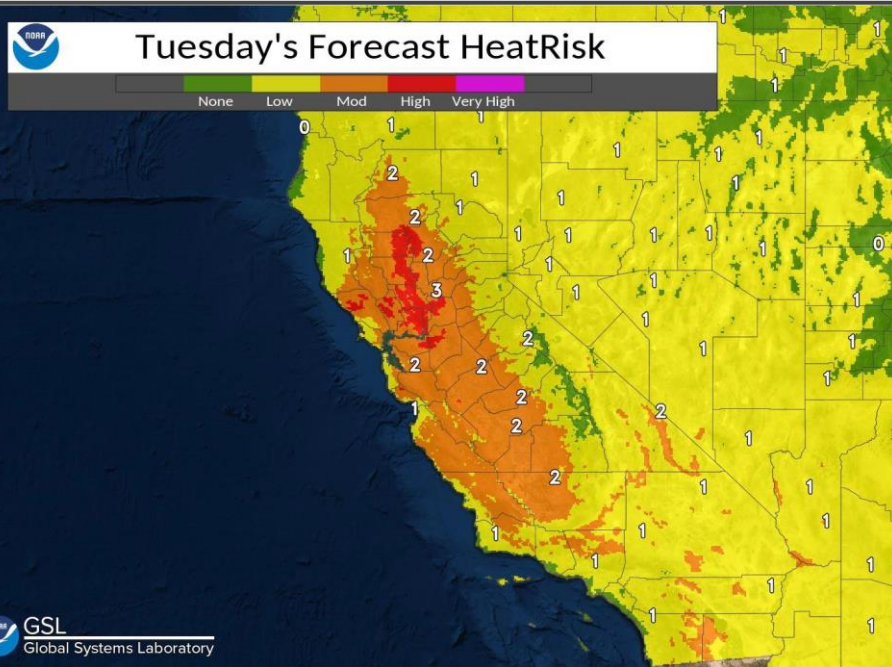

- Very warm temperatures will persist across much of the state this week, with the potential for a few record-setting high temperatures, particularly on Wednesday
  - The hottest days will be today through Thursday, when readings will approach 100°F across the Central Valley, will reach well into the 90s for interior southern California, and range from 105°F to locally 115°F across the southeast deserts
  - Moderate heat risk impacts are likely during this time, especially for the afternoon and early evening hours
    - Locally high heat risk is possible for portions of the Sacramento Valley on Tuesday and Wednesday
- Winds will remain locally breezy for many foothill and mountain locations, bringing numerous periods of localized elevated fire weather conditions. Critical fire weather conditions are also likely across the Sacramento Valley Tuesday through Wednesday morning
  - Strong, gusty winds are also possible in the Kern County Desert Thursday and Friday
- No precipitation is expected for the majority of the state the next 7 days, though some light showers are possible across far northern California for the weekend

**No precipitation is forecast through Thursday.**

**Note:** Forecast precipitation amounts are an average for any particular location. Thunderstorms may produce locally higher rainfall amounts.

Precipitation (inches)

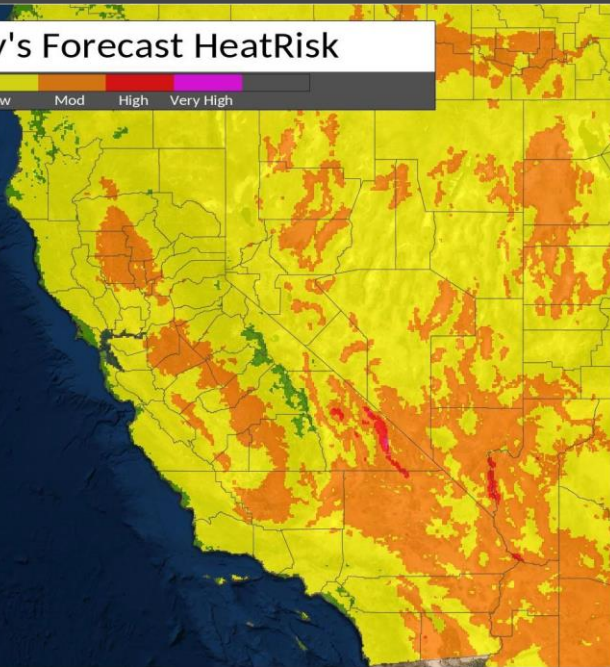

|        |         |   |
|--------|---------|---|
| Green  | Level 0 | No Elevated Risk  |
| Yellow | Level 1 | Low Risk for those extremely sensitive to heat, especially those without effective cooling and/or adequate hydration    |

# Weather Outlook (6-14 Days)

Regional Operations Center  
Western Region  
Tuesday, May 24

## **6-10 Day Outlook (May 29 - June 2)**

### **Temperatures**

- Above normal temperatures are favored across much of the state, except near normal temperatures favored along the Nevada, Oregon and Arizona borders

### **Precipitation**

- Below normal precipitation is favored for central California, with near normal precipitation favored elsewhere

## **8-14 Day Outlook (May 31 – June 6)**

### **Temperatures**

- Above normal temperatures are favored across much of central and southern portions of the state, with below normal temperatures slightly favored across far northern California

### **Precipitation**

- Below normal precipitation is favored for central California, with near normal precipitation favored elsewhere

# Cal OES LAW ENFORCEMENT MISSIONS

## Cal OES Law Enforcement Missions

- **2022-Law-78601, 05/22/22 at 1805 hours:** IERCC advised of an InReach activation at the listed coordinates, Latitude: 36.750737/Longitude: -118.389058. These coordinates return to the King's Canyon National Park near John Muir Trail and Bubbs Creek. I contacted IERCC who confirmed a hiker had injured their ankle but was in touch with local authorities. It was later learned the R/O aiding the injured hiker. I contacted Kings Canyon National Park's Ranger Dispatch who confirmed they were aware of the InReach activation, were communicating with the injured hiker and R/O and were arranging air support to rescue the injured hiker. At 2039 hours, IERCC advised Kings Canyon NP Helicopter had flown to the injured hiker but was unable to land due to rocky terrain. The air crew provided crutches to the injured hiker. The R/O will stay with the injured hiker overnight and they will hike to a landing zone to be picked up tomorrow in the morning (approximately 1000 hours). IERCC has communications with the R/O and the injured hiker and will monitor the situation throughout the night. About 2124 hours, I spoke with Kings Canyon National Park's Dispatch who confirmed the information that IERCC had provided. They have developed a plan to have the R/O slowly assist the hiker to the landing zone in the morning and have the injured hiker extracted via helicopter. **Mission Ongoing.**
- **2022-LAW-76428, 05/19/22, 0830 hours:** Oakley PD through Contra Costa County SO contacted K9 AC and requested 1 SHRD K9 for continued LE sensitive search. Mission set for 5/20/22 at 0815 hours, WOOF has accepted the mission. **Mission Ongoing**

# Cal OES MISSION TASKINGS

## Cal OES Missions

- **2021-TACCOM-061621 (OCFA Testing):** Sonim Kit HQ3 assigned to OCFA, to test Android phones with ATAK for fire season. ETA Return is 05/21/22. COMC monitoring. Contacted Assignee will advise on exact date of return for the resource.
